

ST ALBAN'S CAREERS NEWSLETTER

Hello Everyone

We hope you are all staying safe and well at home 😊

Welcome to our second edition of our Careers Newsletter

This issue our focus is the NHS

There are 350 different careers in the NHS, probably more than any other organisation in the world. You would be surprised how many of them don't require a degree, aren't directly patient-facing, or aren't clinical or hands on!

The huge range of jobs in the NHS will amaze you. The NHS is much more than doctors, nurses, midwives and physiotherapists.

There are clinical and non-clinical careers. From the person who manages the finances, bricklayers, receptionists, biochemists to the clerk who books in an operation, everyone makes a contribution to this vital service.

The NHS have excellent resources to research careers:

Click on the links below to find out more.

www.Healthcareers.nhs.uk

www.Stepintothens.uk

Explore the different categories and then research more into the different roles available,

eg (www.healthcareers.nhs.uk/explore-roles) click on: Allied Health Professionals – whether you are interested in science, the arts, sport or psychology, you are sure to find something here that suits you. Then click on the roles link to see careers in this sector.

Take a look at all the other sectors too!

Online resource for aspiring medics

At this time, students interested in medicine are facing uncertainty and are unable to attend clinical work experience. Observe GP, is a free interactive video platform, created by the Royal College of General Practitioners for aspiring medics aged 16+. It provides insights into medicine through videos and activities.

Are you a creative person?

Can you translate your feelings, observations and opinions into design, visual art, music or even advertising?

Would you like a fun, rewarding career?

If the answer to these questions is yes, a career in creative industries could be for you.

There many different sectors within the industry from advertising, architecture and design to TV & radio, music, visual & performing arts.

The creative and cultural sector is already a major employer and contractor in its own right, with over 1,000 businesses in Norfolk and Suffolk employing over 15,000 people. This sector, and all those who work within it, plays a key role in the region's visitor economy and identity.

What is Engineering

Engineering involves applying maths and science to solve problems. Engineers find practical uses for scientific and mathematical discoveries, so they're the ones behind many of the amazing objects, products and structures we use in our everyday lives. Almost every gadget or built object you see has had a contribution from an engineer.

The engineering field in the UK employs 5.6 million people. So there are plenty of different job roles within the sector to choose from; Mechanical, Chemical, Software, Biomedical, Environmental, Electronic, Civil Engineering

Interesting engineering fact

86,000 engineering roles will be needed in the UK by 2024
