School Child Protection and Safeguarding Policy Framework

Safeguarding and promoting the welfare of children is **everyone's** responsibility. **Everyone** who comes into contact with children and their families has a role to play. In order to fulfil this responsibility effectively, all practitioners should make sure their approach is child-centred. This means that they should consider, at all times, what is in the **best interest** of the child.

(Keeping Children Safe in Education, 2023)

1. Ethos statement

St Alban's Catholic High School is committed to Safeguarding and Promoting the Welfare of all of its students. Each student's welfare is of paramount importance. We recognise that some children *may* be especially vulnerable to abuse and that barriers may exist when recognizing signs of abuse for children who have SEND or from ethnic minority background for several reasons. We recognise that children who are abused or neglected may find it difficult to develop a sense of self-worth, to view the world in a positive way and may present with behaviours, which need careful support. We also recognise that some children who have experienced abuse may pose a risk to others. We will always take a considered and sensitive approach in order that we can support all of our students.

We recognise the moral and statutory responsibility placed on all staff to safeguard and promote the welfare of all children. We aim to provide a safe and welcoming environment in which children can learn, underpinned by a culture of openness where both children and adults feel secure, are able to raise concerns and believe they are being listened to, and that appropriate action will be taken to keep them safe.

2. Introduction

The governing body recognises the need to ensure that it complies with its duties under legislation and this policy has regard to statutory guidance, Keeping Children Safe in Education (KCSiE), Working Together to Safeguard Children and locally agreed inter-agency procedures put in place by Suffolk Safeguarding Partnership Board.

This policy will be reviewed annually, as a minimum, and will be made available publicly via the school website or on request.

Safeguarding and promoting the welfare of children is defined as: protecting children from maltreatment; preventing impairment of children's mental and physical health or development; ensuring that children grow up in circumstances consistent with the provision of safe and effective care; and taking action to enable all children to have the best outcomes.

This policy is for all staff, parents, governors, volunteers, supply staff and contractors and the wider school community. It forms part of the child protection and safeguarding arrangements for our school and is one of a suite of policies and procedures which encompass the safeguarding responsibilities of the school (*school to include appendix detailing school specific linked policies and procedures*). In particular, this policy should be read in conjunction with the school's Code of Conduct/Staff Behaviour Policy (including Acceptable Use of ICT), Safer Recruitment Policy, Online Safety Policy, Behaviour and Anti-Bullying Policy, school's guidance on low-level concerns¹ and Part Five of KCSiE, copies of which will be provided to

all staff on induction.

The aims of this policy are to:

- Provide staff with a framework to promote and safeguard the wellbeing of children and young people, and ensure that all staff understand and meet their statutory responsibilities.;
- Ensure consistent good practice across the school.

The governing body expects that all staff will have read and understand this child protection and safeguarding policy and their responsibility to implement it. Staff working directly with children **must**, as a minimum, have read and understand [Part One of KCSiE](#) and [Annex B](#). Governors will ensure that they and senior leaders have read and understand [Parts One and Two of KCSiE](#). The governing body will ensure that those staff who do not work directly with children have read either Part One or Annex A of KCSiE² together with Annex B. There may be members of staff whom the governing body require they read additional sections³.

The governing body will ensure that arrangements are in place for all staff members to receive appropriate safeguarding and child protection training which is regularly updated. The governing body/proprietor will ensure that all governors and trustees receive appropriate safeguarding and child protection training (including online) at induction which is regularly updated.

Compliance with the policy will be monitored by the Headteacher, designated safeguarding lead (DSL) and named safeguarding governor.

3. Key roles and responsibilities

Governing Body

The governing body has a strategic leadership responsibility for the school's safeguarding arrangements and must ensure that they comply with their duties under legislation. The governing body has a legal responsibility to make sure that there are appropriate policies and procedures in place, which have regard to statutory guidance, in order for appropriate action to be taken in a timely manner to safeguard and promote children and young people's welfare. The governing body will also ensure that the policy is made available to parents and carers by publishing this on the school website or in writing if requested.

The governing body will ensure they facilitate a whole school approach to safeguarding. This means involving everyone in the school and ensuring safeguarding and child protection are at the forefront and underpin all relevant aspects of process and policy development, and that all systems, processes and policies are transparent, clear and easy to understand and operate with the best interests of the child at their heart.

² Annex A of KCSiE is a condensed version of Part One of KCSiE. Whilst it is a matter for schools, based on their assessment, SCC and Suffolk Safeguarding Partnership take the view that it should only be those staff that do not have regular direct contact with children in school, e.g. cleaners who come in out of school hours, who are expected to only read the condensed version of Part One of KCSiE.

³ The governing body may decide that for some roles should read additional parts of the guidance e.g. colleagues involved in safer recruitment administration including the maintenance of the single central record should also read Part Three of KCSE.

The governing body will ensure that where there is a safeguarding concern school leaders will make sure the child's wishes and feelings are taken into account when determining what action to take and what services to provide. Systems will be in place that are well promoted, easily understood and easily accessible for children to confidently report any form of abuse, knowing their concerns will be treated seriously, and knowing they can safely express their views and give feedback.

The governing body will ensure that the school contributes to multi-agency working in line with statutory guidance Working Together to Safeguard Children and that the school's safeguarding arrangements take into account the procedures and practice of the locally agreed multi-agency safeguarding arrangements in place.

The governing body will ensure that, as a minimum, the following policies are in place to enable appropriate action to be taken to safeguard and promote the welfare of children and young people as appropriate:

- online safety,
- behaviour, including measures to prevent bullying (including cyberbullying, prejudice-based and discriminatory bullying)
- special educational needs and disability
- staff code of conduct/behaviour policy (which should also include the procedures that will be followed to address low-level concerns and allegations made against staff, and acceptable use of IT, including the use of mobile devices and communications, including the use of social media.)
- procedure for responding to children who go missing from education, particularly on repeat occasions.
- safer recruitment

It is the responsibility of the governing body to ensure that staff and volunteers are properly vetted to make sure they are safe to work with the students who attend our school and that the school has procedures for appropriately managing safeguarding allegations made against, or low level concerns involving, members of staff (including the headteacher, supply teachers, contractors, and volunteer helpers).

The governing body will ensure that there is a named governor for safeguarding, a Designated Safeguarding Lead (DSL) who is a senior member of the leadership team and has lead responsibility for safeguarding and child protection, and a designated teacher to promote the educational achievement of children who are looked after, or previously looked after, and will ensure that these people have the appropriate training.

The governing body will have regard to their obligations under the Human Rights Act 1998 and the Equality Act 2010 (including the Public Sector Equality Duty).⁴

The governing body will inform Suffolk County Council and the SSP annually about the discharge of their safeguarding duties by completing the safeguarding self-assessment audit.

Headteacher

The Headteacher (Matt Baker) will ensure that the policies and procedures adopted by the governing body are fully implemented and that sufficient resources, time and training are

⁴ Set out in paragraphs 83-93 of KCSiE

provided to enable staff members to discharge their safeguarding responsibilities and contribute effectively to a whole school approach to safeguarding.

The Headteacher will be responsible for ensuring a culture of safety and ongoing vigilance that fosters the belief that 'it could happen here'.

It is the responsibility of the headteacher to put in place a clear system for all staff, parents and other interested third parties to raise any concern about safeguarding within the school and the conduct of any member of staff.

Designated Safeguarding Lead (DSL)

The DSL (Aliyah Alleyne) will take lead responsibility for safeguarding and child protection (including online safety including and understanding the filtering and monitoring systems in place). This will be made explicit in the role-holder's job description. (The broad areas of responsibility and activities related to the role of the DSL are set out in Annex C of KCSiE).

The DSL will have the appropriate status, authority, time, resources and support they need to carry out the duties of the post effectively.

The DSL and any alternate DSLs will provide advice and support to staff in school and will liaise with the local authority and work with other agencies in line with Working Together to Safeguard Children.

During term time, members of the DSL team will always be available during school hours for staff to discuss any safeguarding concerns. The DSL and Headteacher will make arrangements for adequate and appropriate cover arrangements for any out of hours/out of term time activities.

The DSL will undergo training to provide them with the knowledge and skills to carry out the role. This training will be updated every two years.

All staff

All staff have a responsibility to provide a safe environment in which children can learn.

All staff working directly with children must read and ensure they understand at least Part One of KCSiE. Those staff that do not work directly with children must read and ensure they understand either at least Part One or Annex A of KCSiE.

All staff must ensure they are familiar with the systems within school which support safeguarding, including the child protection and safeguarding policy, the code of conduct/staff behaviour policy, the behaviour policy, the safeguarding response to children who go missing from education, and the role of the DSL (including the identity of the DSL and any deputies). These will be explained to all staff on induction and reminded at least annually.

All staff should be aware of indicators of abuse and neglect so that they are able to identify cases of children who may be in need of help or protection. All staff should maintain a belief that 'it could happen here' where safeguarding is concerned and if staff have any concerns about a child's welfare they must act on them immediately.

All staff should be able to reassure victims that they are being taken seriously and that they will be supported and kept safe. A victim, whether staff or student, should never be given the

impression that they are creating a problem by reporting abuse. Nor should a victim ever be made to feel ashamed for making a report.

All staff should know what to do if a child tells them he/she is being abused, neglected or exploited, and/or is otherwise at risk of involvement in criminal activity, such as knife crime, or involved in County Lines drug dealing.

All staff should be aware of the process for making referrals to Children's Social Care and for statutory assessments under the Children Act 1989 that may follow a referral, especially section 17 (children in need) and section 47 (a child suffering, or likely to suffer, significant harm) along with the role they might be expected to play in such assessments or investigations.

All staff should be aware of, and understand their role within the [Early Help process](#) for all services, at both a Local Authority and school or college level. This includes providing support as soon as a problem emerges, liaising with the DSL, and sharing information with other professionals in order to support early identification, assessment, and providing interventions to avoid escalation of worries and needs (see Section 12: Information Sharing). In some cases, staff may be asked to act as the lead professional in undertaking an early help assessment.

Any child may benefit from Early Help, but all school and college staff should be particularly alert to the potential need for early help for a child who:

- is disabled or has certain health conditions and has specific additional needs
- has special educational needs (SEN) (whether or not they have a statutory Education, Health and Care Plan)
- has a mental health need
- is a young carer
- is showing signs of being drawn in to anti-social or criminal behaviour, including gang involvement and association with organised crime groups or county lines
- is frequently missing/goes missing from care or from home
- is at risk of modern slavery, trafficking or sexual or criminal exploitation
- is at risk of being radicalised or exploited
- has a family member in prison, or is affected by parental offending
- is in a family circumstance presenting challenges for the child, such as drug and alcohol misuse, adult mental health issues or domestic abuse
- is misusing alcohol and other drugs themselves
- has returned home to their family from care
- is at risk of 'honour'-based abuse such as Female Genital Mutilation (FGM) or forced marriage
- is a privately fostered child
- is persistently absent from education, including persistent absences for part of the school day

Knowing what to look out for is vital to the early identification of abuse and neglect and specific safeguarding issues such as child criminal exploitation and child sexual exploitation. If staff are unsure, they should always speak to the DSL (or deputy). If in exceptional circumstances the DSL (or deputy) is not available, this should not delay appropriate action being taken. Staff should consider speaking to a member of the senior leadership team and/or take advice from Children's Social Care. In these circumstances, any action taken should be shared with the DSL as soon as is practically possible. Details of the school's safeguarding team are on the front this policy.

4. Induction, Safer Recruitment and Training

The school pays full regard to current DfE guidance Department for Education document “**Keeping Children Safe in Education**” September 2023. We ensure that all appropriate measures are applied in relation to everyone who works in the school who is likely to be perceived by the children as a safe and trustworthy adult including volunteers and staff employed by contractors. Safer recruitment practice covers the full recruitment cycle including scrutinising applicants, verifying identity and academic or vocational qualifications, obtaining professional references, checking previous employment history and ensuring that a candidate has the emotional commitment, health and physical capacity for the job. It also includes undertaking interviews and, where appropriate, undertaking List 99 and Enhanced Disclosure and Barring Service (DBS) checks.

In line with statutory guidance, underpinned by regulations, the following will apply:

- a DBS Enhanced Disclosure is obtained for all new appointments to our school’s workforce. Where individuals are employed by third parties we will require written confirmation from their employers that an appropriate DBS disclosure has been obtained;
- this school is committed to keep an up to date single central record detailing a range of checks carried out on our staff;
- all new appointments to our school workforce who have lived outside the UK will be subject to additional checks as appropriate and we are guided by HR personnel for this;
- our school ensures that supply staff have undergone the necessary checks and will be made aware of this policy;
- identity checks must be carried out on all appointments to our school workforce before the appointment is made.

The following have undertaken the Safe Recruitment training. One of the above will be involved in all staff and volunteer appointments and arrangements (including, where appropriate, contracted services).

Mr M Baker	(Headteacher)
Mrs L Lawrence	(Assistant Headteacher)
Mr N Berry	(Assistant Headteacher)
Mr M Donohue	(Assistant Headteacher)
Mr R Smy	(Finance Manager)
Mrs L Gittins	(Executive Assistant)
Mrs C Pickard	(SENCO)

The governing body will ensure that all staff receive appropriate safeguarding and child protection training (including online safety, which amongst other things includes an understanding of the expectations, applicable role and responsibilities in relation to filtering and monitoring) which is regularly updated and [in line with advice from SSP](#). In addition, all staff members will receive regular safeguarding and child protection (including online safety) updates (for example, via email, e-bulletins, staff meetings) as required, but at least annually, to provide them with relevant skills and up to date knowledge of emerging and evolving safeguarding issues to safeguard children effectively.

All new staff members will undergo safeguarding and child protection training at induction. This will include training on the school's safeguarding and child protection policy, online safety, the code of conduct/staff behaviour policy, low-levels concerns guidance, the behaviour policy, the safeguarding response to children who are absent from education, and the role of the designated safeguarding lead. Copies of the school's policies, procedures and Part One of KCSiE (or Annex A for those staff who do not work directly with children)⁵ will be provided to new staff at induction.

The governing body will ensure that safeguarding training for staff, including online safety training, is integrated, aligned and considered as part of the whole school safeguarding approach and wider staff training and curriculum planning.

The Headteacher will ensure that an accurate record of safeguarding training undertaken by all staff is maintained and updated regularly.

In considering safeguarding training arrangements the governing body will also have regard to the Teachers' Standards which set out the expectation that all teachers manage behaviour effectively to ensure a good and safe educational environment, and require teachers to have a clear understanding of the needs of all pupils.

5. Recognising concerns - signs and indicators of abuse.

All staff should be aware of indicators of abuse and neglect so that staff are able to identify cases of children who may be in need of help or protection. Staff should be aware that children can be at risk of harm inside and outside of school, inside and outside of home and online. Staff should exercise **professional curiosity** and know what to look for as this is vital for the early identification of abuse or neglect.

All staff should be aware that abuse, neglect and safeguarding issues are rarely standalone events that can be covered by one definition or label. In most cases, multiple issues can overlap with others.

All staff should consider whether children might be at risk of abuse or exploitation in situations outside their families – harms take a variety of different forms and children can be vulnerable to multiple harms including sexual abuse (including harassment and exploitation), domestic abuse in their own intimate relationships (teenage relationship abuse), criminal exploitation, serious youth violence, county lines and radicalisation.

⁵ Dependent on school stance on the condensed version of KCSiE. Whilst it is a matter for schools, based on their assessment, SCC and Suffolk Safeguarding Partnership take the view that it should only be those staff that do not have regular contact with children in school, e.g. cleaners who come in out of school hours, who are expected to only read the condensed version of Part One of KCSiE.

All staff should be aware that technology is a significant component in many safeguarding and wellbeing issues and recognise that children are at risk of abuse and other risks online as well as face to face. In many cases abuse will take place concurrently both online and offline. Children can also abuse other children online, this can take the form of abusive, harassing, and misogynistic/misandrist messages, the non-consensual sharing of indecent images, especially around chat groups, and the sharing of abusive images and pornography, to those who do not want to receive such content.

In all cases, if staff are unsure, they should always speak to the DSL, alternate DSLs or a member of the Senior Leadership Team.

Indicators of abuse and neglect

Abuse is defined as a form of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm or by failing to act to prevent harm. Harm can include ill treatment that is not physical as well as the impact of witnessing ill treatment of others. This can be particularly relevant, for example, in relation to the impact on children of all forms of domestic abuse. Children may be abused in a family or in an institutional or community setting by those known to them or, more rarely, by others. Abuse can take place wholly online, or technology may be used to facilitate offline abuse. They may be abused by an adult or adults or another child or children.

The following indicators listed under the categories of abuse are not an exhaustive list:

Physical abuse: a form of abuse which may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.

Emotional abuse: the persistent emotional maltreatment of a child such as to cause severe and adverse effects on the child's emotional development. It may involve conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person. It may include not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capability as well as overprotection and limitation of exploration and learning, or preventing the child participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another. It may involve serious bullying (including cyberbullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur alone.

Sexual abuse: involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving violence, whether or not the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing. They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse (including via the internet). Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children. The sexual

abuse of children by other children is a specific safeguarding issue (also known as child-on-child abuse) in education and all staff should be aware of it and of the school's policy and procedures for dealing with it. (See section 7: Specific safeguarding issues) *[schools should cross-reference their school policy/procedures for dealing with child-on-child abuse within the school's Child Protection and Safeguarding Policy]*

Neglect: the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy as a result of maternal substance abuse. Once a child is born, neglect may involve a parent or carer failing to: provide adequate food, clothing and shelter (including exclusion from home or abandonment); protect a child from physical and emotional harm or danger; ensure adequate supervision (including the use of inadequate care-givers); or ensure access to appropriate medical care or treatment. It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

(Source Keeping Children Safe in Education)

6. Specific safeguarding issues

All staff should have an awareness of safeguarding issues that can put children at risk of harm. Behaviours linked to issues such as of drug taking and/or alcohol abuse, deliberately missing education, serious violence (including that linked to County Lines) and consensual and non-consensual sharing of nudes and semi-nudes images and/or videos can be signs that children are at risk. Other safeguarding issues all staff should be aware of include:

Child-on-child abuse

All staff should be aware that children can abuse other children (often referred to as child-on-child abuse). This can happen both inside and outside of school and online. It is important that all staff recognise the indicators and signs of child-on-child abuse and know how to identify it and respond to reports.

All staff should understand, that even if there no reports in school it does not mean it's not happening, it may be the case that it is just not being reported. As such, it is important if staff have any concerns regarding child-on-child abuse they should speak to the DSL (or deputy) and record these using the school/college's safeguarding system. St Alban's uses a system called MyConcern to record, log and track all safeguarding concerns.

It is essential that all staff understand the importance of challenging inappropriate behaviours between children, many of which are listed below, that are abusive in nature. Downplaying certain behaviours, for example dismissing sexual harassment as "just banter", "just having a laugh", "part of growing up" or "boys being boys" can lead to a culture of unacceptable behaviours, an unsafe environment for children and in worst case scenarios a culture that normalises abuse leading to children accepting it as normal and not coming forward to report it.

Child-on-child abuse is most likely to include, but may not be limited to:

- bullying (including cyberbullying, prejudice-based and discriminatory bullying)
- abuse in intimate personal relationships between children (sometimes known as 'teenage relationship abuse')
- physical abuse such as hitting, kicking, shaking, biting, hair pulling, or otherwise causing physical harm (this may include an online element which facilitates, threatens and/or encourages physical abuse)
- sexual violence, such as rape, assault by penetration and sexual assault (this may include an online element which facilitates, threatens and/or encourages sexual violence)

- sexual harassment, such as sexual comments, remarks, jokes and online sexual harassment, which may be stand-alone or part of a broader pattern of abuse.
- causing someone to engage in sexual activity without consent, such as forcing someone to strip, touch themselves sexually, or to engage in sexual activity with a third party.
- consensual and non-consensual sharing of nudes and semi nudes images and or videos⁶ (also known as sexting or youth produced sexual imagery)
- upskirting, which typically involves taking a picture under a person's clothing without their permission, with the intention of viewing their genitals or buttocks to obtain sexual gratification, or cause the victim humiliation, distress or alarm; and
- initiation/hazing type violence and rituals (this could include activities involving harassment, abuse or humiliation used as a way of initiating a person into a group and may also include an online element)

All staff should be clear about the school's policy and procedures with regards to child-on-child abuse and the important role they have to play in preventing it and responding where they believe a child may be at risk from it.

Child sexual exploitation (CSE) and Child Criminal Exploitation (CCE)

Both CSE and CCE are forms of abuse and both occur where an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child into taking part in sexual or criminal activity, in exchange for something the victim needs or wants, and/or for the financial advantage or increased status of the perpetrator or facilitator and/or through violence or the threat of violence. CSE and CCE can affect children, both male and female and can include children who have been moved (commonly referred to as trafficking) for the purpose of exploitation.

Child Criminal Exploitation (CCE)

Some specific forms of CCE can include children being forced or manipulated into transporting drugs or money through county lines, working in cannabis factories, shoplifting or pickpocketing. They can also be forced or manipulated into committing vehicle crime or threatening/committing serious violence to others.

Children can become trapped by this type of exploitation as perpetrators can threaten victims (and their families) with violence or entrap and coerce them into debt. They may be coerced into carrying weapons such as knives or begin to carry a knife for a sense of protection from harm from others. As children involved in criminal exploitation often commit crimes themselves, their vulnerability as victims is not always recognised by adults and professionals (particularly older children), and they are not treated as victims despite the harm they have experienced. They may still have been criminally exploited even if the activity appears to be something they have agreed or consented to.

It is important to note that the experience of girls who are criminally exploited can be very different to that of boys. The indicators may not be the same, however staff should be aware that girls are at risk of criminal exploitation too. It is also important to note that both boys and girls being criminally exploited may be at higher risk of sexual exploitation.

Child Sexual Exploitation (CSE)

CSE is a form of child sexual abuse. Sexual abuse may involve physical contact, including assault by penetration (for example, rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing, and touching outside clothing. It may include non-contact activities, such as involving children in the production of sexual images, forcing children to look at sexual images or watch sexual activities, encouraging children to behave in sexually inappropriate ways or grooming a child in preparation for abuse including via the internet.

⁶ UKCIS guidance: Sharing nudes and semi-nudes advice for education settings.

CSE can occur over time or be a one-off occurrence, and may happen without the child's immediate knowledge e.g. through others sharing videos or images of them on social media.

CSE can affect any child, who has been coerced into engaging in sexual activities. This includes 16 and 17 year olds who can legally consent to have sex. Some children may not realise they are being exploited e.g. they believe they are in a genuine romantic relationship.

Domestic Abuse

Domestic abuse can encompass a wide range of behaviours and may be a single incident or pattern of incidents. That's abuse can be, but is not limited to, psychological, physical, sexual, financial or emotional. Children can be victims of domestic abuse. They may see, hear, or experience the effects of abuse at home and/or suffer domestic abuse in their own intimate relationships (teenage relationship abuse). All of which can have a detrimental and long term impact on their health, well-being, development, and ability to learn.

Female Genital Mutilation (FGM)

Whilst all staff should speak to the DSL (or deputy) with regard to any concerns about FGM, there is a specific legal duty on teachers⁷. If a teacher, in the course of their work in the profession, discovers that an act of FGM appears to have been carried out on a girl under the age of 18, the teacher must report this to the police.

Mental

Health

All staff should be aware that mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation.

Only appropriately trained professionals should attempt to make a diagnosis of a mental health problem. Education staff, however, are well placed to observe children day-to-day and identify those whose behaviour suggests that they may be experiencing a mental health problem or be at risk of developing one.

Staff can access a range of advice to help them identify children in need of extra mental health support, this includes working with external agencies.

If staff have a mental health concern about a child that is also a safeguarding concern, immediate action should be taken, following the school's policy, and speaking to the DSL or a deputy.

St Alban's has a team of trained Mental Health First Aiders who have all obtained the Youth Mental Health First Aid certificate. Mental Health First Aiders are available to support all students and staff in promoting the wellbeing of all at St Alban's. Mental Health First Aiders are equipped to support a variety of low-level Mental Health Concerns and will always liaise with the DSL team as appropriate. The Mental Health Lead for the school is Mark Donohue.

Serious violence

All staff should be aware of the indicators which may signal that children are at risk from, or involved with, serious violent crime. These may include increased absence from school, a change in friendships or relationships with older individuals or groups, a significant decline in performance, signs of self-harm or a significant change in wellbeing, or signs of assault or unexplained injuries. Unexplained gifts or new possessions could also indicate that children

⁷ Under section 5B(11) (a) of the Female Genital Mutilation Act 2003, 'teacher' means, in relation to England, a person within section 141A(1) of the Education Act 2002 (persons employed or engaged to carry out teaching work at schools and other institutions in England)

have been approached by, or are involved with, individuals associated with criminal networks or gangs and may be at risk of criminal exploitation.

For a comprehensive information of various types of abuse also see – [NSPCC: Types of Child Abuse & How to Prevent Them](#)

7. Children potentially at greater risk of harm

The governing body recognises that whilst all children should be protected there are some groups of children who are potentially at greater risk of harm and, in some cases, these children may find it difficult to communicate what is happening to them.

Children who need a social worker (Child in Need and Child Protection Plans)

Children may need a social worker due to complex safeguarding or welfare needs. Children may need this help due to abuse, neglect and/or complex family circumstances. A child's experiences of adversity and trauma can leave them vulnerable to further harm, as well as educationally disadvantaged in facing barriers to attendance, learning, behaviour and mental health.

The governing body expects that the Local Authority inform the school that a child has a social worker, and the DSL will hold and use this information so that decisions can be made in the best interests of the child's safety, welfare and educational outcomes. This should be considered as a matter of routine. There are clear powers to share this information under existing duties on both LAs and school to safeguard and promote the welfare of children.

Where children need a social worker, this should inform decisions about safeguarding (for example, responding to unauthorised absence or to a child missing education where there are known safeguarding risks) and about promoting welfare (for example, considering the provision of pastoral and/or academic support, alongside action by statutory services).

Children absent from education

A child being absent from education, particularly repeatedly, can be a warning sign of a range of safeguarding issues. This might include abuse or neglect, such as sexual abuse or exploitation or child criminal exploitation, or issues such as mental health problems, substance abuse, radicalisation, domestic abuse, FGM or forced marriage. It may also indicate that the student is a young carer or that their parent/carer is in need of support.

There are many circumstances where a child may be absent or become missing from education, but some children are particularly at risk. These include children who:

- › Are at risk of harm or neglect
- › Being bullied in school
- › Are at risk of forced marriage or FGM
- › Come from Gypsy, Roma, or Traveller families
- › Come from the families of service personnel
- › Go missing or run away from home or care
- › Are supervised by the youth justice system
- › Cease to attend a school
- › Come from new migrant families

The school's procedures for unauthorised absence and for dealing with children who are

absent from education will be followed, particularly on repeat occasions, to help identify the cause and how support can be provided. This includes when problems are first emerging but also where children are already known to LA Children's Social Care and need a social worker (such as on a child in need or child protection plan, or as a looked after child), where absence from education may increase known safeguarding risks within the family or in the community. As such, all staff should be aware of the school's unauthorised absence procedures and children missing education procedures. This includes informing the LA if a child leaves the school without a new school being named and adhering to requirements with respect to sharing information with the LA, when applicable, for example when removing a child's name from the admission register at non-standard transition points.

Staff will be trained in signs to look out for and the individual triggers to be aware of when considering the risks of potential safeguarding concerns which may be related to being absent, such as travelling to conflict zones, FGM and forced marriage.

Further information and support includes:

- schools' duties regarding children missing education, including information schools must provide to the LA when removing a child from the school roll at standard and non-standard transition points can be found in the DfE's statutory guidance: [Children Missing Education](#).
- General information and advice for schools can be found in the Government's [Missing Children and Adults Strategy](#).
- further information for colleges providing education for a child of compulsory school age can be found in: [Full-time-Enrolment of 14 to 16 year olds in Further Education and Sixth Form Colleges](#)
- guidance for schools concerning children who are absent from education [Working Together To Improve School Attendance](#)

Children in Care and Previously Looked after Children.

The most common reason for children becoming looked after is as a result of abuse and/or neglect. The governing body will ensure staff have the skills, knowledge and understanding to keep looked after children safe. The Designated Teacher for Children in Care is Aliyah Alleyne. The Governing body will also have a Looked after Child governor.

The Headteacher will ensure there are arrangements in place so that appropriate staff have the information they need in relation to a child's looked after legal status (whether they are looked after under voluntary arrangements, like unaccompanied minors (UASC) or children cared for with consent of parents (s20 of the Children Act 1989), or on an interim or full care order)

The Safeguarding team should ensure that they obtain relevant information from the Local Authority in relation to all Looked after children. This will include details of who is caring for them, the name of the IRO (Independent Review Officer), child's Legal status and Family times arrangement (contact).

Appropriate staff will also have information about the child's care arrangements and the levels of authority delegated to the carer by the authority looking after the child. The DSL should have the details of the child's social worker and the name of the virtual school head in the authority that looks after the child.

A previously looked after child potentially remains vulnerable and all staff should have the skills, knowledge and understanding to keep previously looked after children safe. The governing body recognise that when dealing with looked after children and previously looked after children, it is important that all agencies work together and prompt action is taken when necessary to safeguard these children, who are a particularly vulnerable group.

For children who are care leavers, the DSL should have details of the LA Young Person Adviser appointed to guide and support the care leaver and liaise with them as necessary regarding any issues of concern.

St Alban's will engage with and support the child's Person centred PEP meetings, Child in care reviews and when required will undertake Strength Difficulties Questionnaire (SDQ).

Children with SEN and disabilities, or health issues can face additional safeguarding challenges, both online and offline.

Staff should avoid making assumptions that indicators of possible abuse such as behaviour, mood and injury may relate to the child's disability or medical condition without further exploration.

Staff should also be aware that these children may be more prone to peer group isolation or bullying (including prejudice-based bullying) than other children. Similarly, staff should be aware of the potential for children with SEND or certain medical conditions being disproportionately impacted by behaviours such as bullying without outwardly showing signs or being able to communicate how they are feeling.

Staff also need to be mindful of children's cognitive understanding, for example, whether they are able to understand the difference between fact and fiction in online content and the consequences of repeating the content/behaviours in school.

As such, any reports of abuse involving children with SEND will require close liaison with the DSL and SENCO. The school's SENCO is Claire Pickard.

Further information can be found in the DfE's:

- [SEND Code of Practice 0 to 25 years](#), and
- [Supporting Pupils at School with Medical Conditions](#).

St Alban's will participate and when required will facilitate Education, Health and Care (EHC) assessments and statutory annual reviews of EHCP. The school will also support Individual Education Plans (IEP) for students who need additional learning assistance but do not have EHCP.

Children who are lesbian, gay, bi, or trans (LGBT)

The governing body acknowledge that the fact that a child or young person may be LGBT is not in itself an inherent risk factor for harm. However, children who are LGBT can be targeted by other children and others in the community. In some cases, a child who is perceived to be LGBT (whether they are or not) can be just as vulnerable as children who identify as LGBT.

Risks can be compounded where children who are LGBT lack a trusted adult with whom they can be open. Staff should therefore endeavour to reduce the additional barriers faced and provide a safe space for them to speak out or share their concerns with members of staff.

8. Curriculum

The governing body will ensure that children and young people are taught about how to keep themselves and others safe, including online.

The governing body recognise that effective education should be tailored to the specific needs

and vulnerabilities of individual children, including children who are victims of abuse, and children with SEND. The DSL will work collaboratively with the school's PSHE (Personal, Social, Health and Economic) Lead to establish a curriculum for safeguarding.

Relevant topics will be included within Relationships and Sex Education (also known as Sex and Relationship Education) and through Health Education, having regard to statutory guidance and guidance from the Catholic Education Service.

Preventative education is most effective in the context of a whole-school approach that prepares children and young people for life in modern Britain and creates a culture of zero tolerance for sexism, misogyny/misandry, homophobia, biphobia and sexual violence/harassment.

The governing body expect that the school's values and standards should be upheld and demonstrated throughout all aspects of school life. These will be underpinned by the school's behaviour policy and pastoral support system, as well as by a planned programme of evidence-based RSHE delivered in regularly timetabled sessions and reinforced throughout the whole curriculum. This whole-school approach will be fully inclusive and developed to be age and stage of development appropriate, and will tackle (in age-appropriate stages) issues such as:

- Healthy and respectful relationships
- Boundaries and consent
- Stereotyping, prejudice and equality
- Body confidence and self-esteem
- How to recognise and abusive relationship, including coercive and controlling behaviour
- The concepts of, and laws relating to – sexual consent, sexual exploitation, abuse, grooming, coercion, harassment, domestic abuse, so called honour-based violence such as forced marriage and FGM, and how to access support, and
- What constitutes sexual harassment and sexual violence and why these are always unacceptable.

The school will ensure that there are appropriate filters and monitoring systems in place to safeguard children and young people from potentially harmful and inappropriate online material.

9. Online safety and filtering and monitoring

The governing body has had due regard to the additional information and support set out in KCSiE and ensures that the school has a whole school approach to online safety, and has a clear policy on use of communications technology in school. Online safety will be a running and interrelated theme when devising and implementing policies and procedures. This will include considering how online safety is reflected in all relevant policies and whilst planning the curriculum, any teacher training, the role of the DSL and any parental engagement.

It is essential that children are safeguarded from potentially harmful and inappropriate online material. The school adopts a whole school approach to online safety to protect and educate pupils and staff in their use of technology, and establishes mechanisms to identify, intervene in, and escalate any concerns as appropriate.

Online safety issues can be categorised into four areas of risk:

- Content: being exposed to illegal, inappropriate or harmful content, for example, pornography, fake news, racism, misogyny, self-harm, suicide, anti-Semitism, or radicalisation or extremism;

- Contact: being exposed to harmful online interaction with other users, for example, peer to peer pressure, commercial advertising, and adults posing as children or young adults with the intention to groom or exploit them for sexual, criminal, financial or other purposes;
- Conduct: online behaviour that increases the likelihood of, or causes, harm, for example, making, sending and receiving explicit images (e.g. consensual and non-consensual sharing of nudes and semi-nudes and/or pornography, sharing other explicit images, and online bullying); and
- Commerce: risks such as online gambling, inappropriate advertising, phishing and/or financial scams. If staff feel that either they or pupils are at risk this should be reported to the Anti-Phishing Working Group (<https://apwg.org/>).

The governing body will ensure that an annual review is undertaken of the school's approach to online safety including the school's filtering and monitoring provision. The review should include a member of the senior leadership team, the DSL, the IT service provider and a governor. The school should ensure they have the appropriate level of security protection procedures in place in order to safeguard their systems, staff and learners and review the effectiveness of these procedures periodically to keep up with evolving cyber-crime technologies. Guidance on cyber security including considerations can be found at [Cyber security training for school staff - NCSC.GOV.UK](https://www.ncsc.gov.uk/online-safety/cyber-security-training-for-school-staff) The school uses Lightspeed to filter and Impero to monitor online activity. All staff receive training on using Impero annually. Students' activity on school devices and networks is monitored and where necessary, members of the school's pastoral team challenge and educate pupils depending on their online activity. This includes using the school's behavior policy as necessary. The school's approach towards mobile phone use can be found in the Behaviour Policy and in the Online Safety Policy.

School staff can access resources, information and support as set out in Annex B of KCSiE.

10. Procedures

If staff notice any indicators or signs that a child or young person may be experiencing a safeguarding issue they should record their concerns on the school's safeguarding management system (MyConcern) or on a school recording form for safeguarding concerns and pass it to the DSL team without delay.

What to do if you are concerned.

If a child makes an allegation or disclosure of abuse against an adult or other child or young person, it is important that you:

- Stay calm and listen carefully;
- Accept what is being said;
- Allow the child/young person to talk freely – do not interrupt or put words in the child/young person's mouth;
- Only ask questions when necessary to clarify, do not investigate or ask leading questions;
- Reassure the child, but don't make promises which it might not be possible to keep;
- Do not promise confidentiality;
- Emphasise that it was the right thing to tell someone;
- Do not make promises to keep it to yourself
- Reassure them that what has happened is not their fault;
- Do not criticise the perpetrator;
- Explain what has to be done next and who has to be told;
- Make a written record, which should be signed and include the time, date and your position in school;
- Do not include your opinion without stating it is your opinion;

- Pass the information to the DSL or alternate without delay
- Consider seeking support for yourself and discuss this with the DSL as dealing with a disclosure can be distressing.

When a record of a safeguarding concern is passed to the DSL, The DSL will assess the concern and, taking into account any other safeguarding information known about the child/young person, consider whether it suggests that the threshold of significant harm, or risk of significant harm, has been reached or may be a child in need. If the DSL is unsure whether the threshold has been met, they will contact the MASH Professional Consultation Line for advice (0345 606 1499). Where appropriate, the DSL will complete and submit the SSP multi agency referral form (MARF) ([available on the SSP website](#))⁸.

Where the DSL believes that a child or young person may be at imminent and significant risk of harm they should call Customer First immediately and then complete the SSP MARF within 24 hours to confirm the referral. In these circumstances, it is important that any consultation should not delay a referral to Customer First.

Where a safeguarding concern does not meet the threshold for completion of a MARF, the DSL should record how this decision has been reached and should consider whether additional needs of the child have been identified that might be met by a coordinated offer of early help including the school or college's local early help offer. The school's early help offer can be found on the school website.

School staff might be required to contribute to multi-agency plans to provide additional support to children. This might include attendance at strategy meetings, child protection conferences or core group meetings. The school is committed to providing as much relevant up to date information about the child as possible, including submitting reports for child protection conferences in advance of the meeting in accordance with SSP procedures and timescales.

Where reasonably possible, the school is committed to obtaining more than one emergency contact number for each pupil.

School staff must ensure that they are aware of the procedure to follow when a child goes missing from education.

School staff must ensure that they are aware of the policy and procedure to follow in regards to child-on-child abuse as set out in this and the school's Behaviour policy.

11. Information sharing, record keeping and confidentiality

Information sharing is vital in safeguarding children by identifying and tackling all forms of abuse and neglect, and in promoting children's welfare, including in relation to their educational outcomes. Schools have clear powers to share, hold and use information for these purposes.

As part of meeting a child's needs, the school understands that it is critical to recognise the importance of information sharing between professionals and local agencies and will contribute to multi-agency working in line with Working Together to Safeguard Children. Where there are concerns about the safety of a child, the sharing of information in a timely and effective manner between organisations can reduce the risk of harm. Whilst the Data

⁸ N.B. The exception to this process will be in those cases of known FGM where there is a mandatory requirement for the teacher to report directly to the police, although the DSL should also be made aware.

Protection Act 2018 places duties on organisations and individuals to process personal information fairly and lawfully, and to keep the information they hold safe and secure, it is not a barrier to sharing information where the failure to do so would result in a child or vulnerable adult being placed at risk of harm. Similarly, human rights concerns, such as respecting the right to a private and family life would not prevent sharing where there are real safeguarding concerns. Staff should not assume a colleague or another professional will take action and share information that might be critical in keeping children safe. Staff will have regard to the Government guidance: [Information sharing: advice for practitioners providing safeguarding services to children, young people, parents and carers](#) which supports staff who have to make decisions about sharing information. This advice includes the seven golden rules for sharing information and considerations with regard to the Data Protection Act 2018 and General Data Protection Regulation (GDPR). If in any doubt about sharing information, staff should speak to the DSL or a deputy.

Well-kept records are essential to good child protection practice. All concerns, discussions and decisions made and the reasons for those decisions should be recorded in writing on MyConcern. If in doubt about recording requirements, staff should discuss with the DSL.

The school recognises that confidentiality should be maintained in respect of all matters relating to child protection. Information on individual child protection cases may be shared by the DSL or alternate DSL with other relevant members of staff. This will be on a 'need to know' basis and where it is in the child's best interests to do so.

A member of staff must never guarantee confidentiality to anyone about a safeguarding concern (including parents/carers or pupils), or promise a child to keep a secret which might compromise the child's safety or wellbeing.

As well as allowing for information sharing, in circumstances where it is warranted because it would put a child at risk of serious harm, the DPA 2018 and the GDPR allow schools to withhold information. This may be particularly relevant where a child is affected by domestic abuse perpetrated by a parent or carer, is in a refuge or another form of emergency accommodation, and the serious harm tests is met.

Ordinarily, the school will always undertake to share its intention to refer a child to Social Care with their parents /carers unless to do so could put the child at greater risk of harm, or impede a criminal investigation. It would be legitimate to share information without consent where: it is not possible to gain consent; it cannot reasonably be expected that a practitioner gains consent; and, if to gain consent would put a child at risk. If in doubt, staff will consult with the MASH Professional Consultation Line on this point.

St Alban's Catholic High School will share with parents/carers any concerns we may have about their child unless to do so may place a child at risk of harm. Our primary focus is to safeguard the children's wellbeing whilst they are in school and to support them and their families to understand contextual safeguarding – which is safeguarding issues within the community that may undermine their welfare.

We encourage parents/carers to discuss any concerns they may have with any member of staff who may in turn direct them to a more appropriate person if and when necessary e.g. Designated Safeguarding Lead (DSL), pastoral team. We make parents/carers aware of our policy through 'Contact' and the school website. The policy is uploaded onto the policies page of the website.

The school will have regard to [SCC Guidance for schools on maintaining and transferring pupil safeguarding/child protection records](#). Where a child leaves the school, the DSL will ensure their child protection file is transferred to the new school as soon as possible. The file will be

transferred separately from the main pupil file, ensuring secure transit, and confirmation of receipt should be obtained.

12. Managing allegations made against teachers, including supply teachers, other staff, volunteers and contractors

St Alban's Catholic High School will follow the SSP [Arrangements for Managing Allegations of Abuse Against People Who Work With Children or Those Who Are in A Position of Trust](#) if a safeguarding concern or allegation is raised against an adult in a position of trust.

An allegation that may meet the harm threshold is any information which indicates that a member of staff /volunteer may have:

- behaved in a way that has harmed a child, or may have harmed a child;
- possibly committed a criminal offence against or related to a child; or
- behaved towards a child or children in a way that indicates he/she may pose a risk of harm to children; and/or
- behaved or may have behaved in a way that indicates they may not be suitable to work with children.

This applies to any child the member of staff, supply teacher, volunteer or contractor has contact with in their personal, professional or community life. It also applies regardless of whether the alleged abuse took place in our school.

Concerns that do not meet the harm threshold will be dealt with in accordance with the school's policy for managing low-level concerns. We encourage all staff to be vigilant and report any concerns they may have directly to the Headteacher. Where the concern is regarding the Headteacher, staff should follow the school's Whistleblowing policy which can be found [here](#).. If any member of staff has concerns that a colleague, supply teacher, volunteer or contractor might pose a risk to children, it is their duty to report these to the headteacher. Where the concerns or allegations are about the headteacher, these should be referred to the Chair of Governors. The headteacher/ should report the concern to the Local Authority Designated Officer (LADO) within one working day.

The Director of Children Services (DCS), has identified dedicated staff to undertake the role of LADO. LADOs can be contacted via email on LADO@suffolk.gov.uk or by using the LADO central telephone number: **0300 123 2044** for allegations against all staff and volunteers.
